COOPER'S OPERA TROUPE .- We are truly glad to mnounce to our readers that they will on to-morrow (Tuesday) night have another opportunity of hearing Miss Annie Milner sing and Mr. H. Cooper perform on the violin. They were ere some weeks ago, but did not draw such audiences as they deserved. We have not had many such vocalists in our city as Miss Milner, and have but few such violinists as Cooper. They will give us an operatic performance at the Mozart Hall to-morrow night in the shape of a miscellaneous concert, to be followed by L Elisier D' Amour. Three other performances on the three following nights will be all we can have of this excellent troupe, and we bespeak for them large music should go to hear them every night, and we guarantee they will not reget it.

THE FRUIT SAFE YET .- The cold of Friday night did not destroy the fruit. In Pewee Valley the thermometer was one and a half degrees below the freezing point, but the fruit was found, upon examination the next day, to be uninjured. We hope that March will behave itself, and not quit being a spring month and turn fruit-killer. His namesake, of old, slew men and fought gods, and scorned the piddling business of warring with the ouds and blossoms of fruit trees.

RAREY, THE HORSE TAMER .- Prof. W. H. Rarey the celebrated horse tamer who has created such lecture in the south room of the Masonic Temple Wednesday evening. As a matter of course there are many in the city who want to see and hear a man who exercises such mastery over the noble horse, whose vicious wildness renders him useless, until the Professor teaches him how to behave himself

KEENE AGAINST TAYLOR .- Miss Laura Keene has instituted suit in Baltimore against John T. Ford, prevent him, by injunction, from performing Our American Cousin" upon the stage. She says she bought the play, and the exclusive right to perform it, from Tom Taylor, the English author. If she sues everybody who attempts to act the play, she will have to enjoin a good many

Lowe's Farewell to his Family.

We have said that Thomas S. Lowe had a presentment that his difficulty with Cicero Maxwell would lead to his own death. The narrative he prepared a few days before his death, and which we published Saturday morning, just as he left it, indicates this premonition. In addition to this, however, he made his will, appointed his executors, and gave verbal as well as written instructions outside of the will itself of his wishes; and, moreover, on Tuesday morning, March 2d, he bade his family farewell, as if he never expected to see his wife and little children again in this world. He was right in his presentiment. He never did see them more. On her way to see him Wednesday morning, his wife was informed of his murder, a few minutes before, and returned to her desolate

He was brought up to and learned the trade of a lithographer, at which he was considered one of the best mechanics in the city. In 1840, Mr. Walsh published and edited a weekly paper called the Knickerbocker, the existence of which, after a few years, was terminated by the conviction of the editor for a libel published in its columns. About the year 1840, Mr. Walsh edited another weekly newspaper en-titled the Subterranean, which was published for two or three years only. In the year 1845, Mr. Walsh was nominated by the Democratic party and elected as a member of Congress, where he distinguished himself by his ever rough and ready remarks on all subjects. At the expiration of his term of office, Mr. Walsh returned to the city and engaged in literary pursuits, contributing several articles to the various periodicals. On his return from Europe, Mr. Walsh again engaged in literary occupations till about eighteen months ago, when he was sent by President Buchanan on a secret mission to Mexico in relation, it is supposed, to the Central American difficulties. He returned from Mexico about six months ago, and shortly afterwards joined in the publication of a small daily paper in this city called the Evening Sentinel, but which only lived a few days. Since then, Mr. Walsh has lived in retirement. Mr. Walsh's character for honesty always stood high in the community; and although his behits and executions, astronomy him from his habits and associations estranged him from many of his former friends, yet this one sterling trait of his character was never denied. Corporal Dunc. Promoted. In the execution of our legitimate duty as a public journalist; -esteeming it a part of that duty to disseminate gratifying intelligence among the masses-we write this article to give a no-

respecting Grand Secretary Duncan: Two short weeks ago Democracy in Louisville was rampant and boisterous. To-day it is crest-fallen and quiet. What has produced the change? Secretly its members worked for weeks, organiz-Secretly its members worked for weeks, organizing and collecting funds with which to surprise us. They paid up taxes by hundreds, and only one week remained for our party to perform their labor in. It seemed impossible to the Democrats, that in so brief a period their efforts could be rendered fruitless; but they reckoned without their host. The "Grand Secretary," in gratitude for many past favors, was compelled to give them some return. A meeting of prominent men was called by him on Saturday night, 5th March, the danger of longer delay palpably manifested, and immediate steps were taken to rectify the evil. Mr. Duncan was appointed commander-in-chief, and liberal supplies of the "sinews of war" placed at his disposal.—Low. Journal.

How very kind of this "meeting of prominent men." Who shall any longer say that Republics are ungrateful? Doubtless these good Samaritans, while pouring this balm into his hurts, were not unmindful of how he had fallen among thieves and been stripped of five hundred dollars, for the restoration of which all his begging secret circulars proved unavailing. They must have remembered too, the distressingly contemptuous manner in which he was treated by the Oppositionists of the 22d of Feb. Convention, and intended this as a salve to his wounded self love. Commander of the faithful-what more district, himself told us that his drawer was

To other rare qualities the "Commander-inchief" adds a keen appreciation of the maxim that "the great art of commanding is to take a fair share of the work," for we are informed that he labored night and day for a whole week making voters, a task which "no other person in the State would probably have been found to perform."-From this great zeal and untiring energy immense effects are expected to arise. Nothing less than a stunning victory in this city in April, and another "stunner" throughout the State in August. Who knows but that this appointment may be the cause of the election of Joshua F. F. Bell! Had they avoided this egregious
blunder, victory might have been within their
reach, and that "stunner" in August been no unreasonable expectation. of the Commander-in-Chief in favor in Joshua reasonable expectation.

Had he been chosen to lead the Opposition throughout the State, what Napoleonic combinations we should have had for the approaching campaign! He would have been as full of projects for the defeat of the Democracy as a n egg is full of meat, or an Illinois swamp of tadpoles. Confined to a narrower sphere, however, his operations will only be the more destructive. The thundering charges of the magnificent Murat, even, will be eclipsed by the resistless onset of the "Commander-in-Chief" as he comes crashing down on the dispirited and disheartened Democracy of Louisville. What, then, is left for them to do on theday of bat-"crest-fallen and quiet," as they already are, but to throw down their arms and cry, "suave qui peut" as the gallant Corporal Grand Secretary and Commander-in-Chief Duncan rides them down, all the while snorting forth his slogan, "Here I come, God Almighty d --- my

Chrisman, The Lexington Statesman says that "the expressions of the county meetings held in the Fourth Congressional District to appoint delegates to the convention to be held at Jamestown on the 26th, leave no doubt of the nomination of Hon. James S. Chrisman, of Wayne, by an almost, if not absolutely, unanimous vote. Eight counties have already instructed for him, and Mr. Cravens, of Adair, for whom the remaining three counties declared, has withdrawn from the canvass, announcing his purpose not to permit his name to go be fore the convention. We presume, from these indications, that the action of the Jamestown convention will be harmonious and unanimous .-Mr. Cravens promises, as becomes a loyal and true Democrat, the most cordial and active support of the nominee, and those who know his sterling integrity, want no other assurance touch-

ing his course in the cavass. Mr. Chrisman represented the Fourth Distric in the Congress of 1853, being elected over a large opposition majority, after a most energetic and untiring canvass. He is a gentleman of great energy and determination, bold, fearless, and true, a gifted speaker and well informed politician.— His unflinching Democracy will arouse all the fire of the Opposition, but will also rally around him a host of enthusiastic friends. He has no easy race before him, but he is not the man to ask positions which require no exertion and invelve no hazard. The Opposition will make a desperate struggle for the Fourth District. All the appliances which the friends of Bell and Anderson can bring to bear, will be liberally employed, and no effort spared to recover the district. All Mr. Chrisman asks is fidelity on the part of his friends, and that he cannot fail to meet. Let the Democracy rally to him, and he will sus-

Guthrie and the Next Presidency. The best evidence of the prospects of the Hon James Guthrie, for the Presidential campaign o 1860, is that the theme is upon so many tongues. The Democratic press in his native State seems to be an unit for him, since no editor has taken grounds against him, while nearly every one of them has come out boildy, and unequivocally, and warmly for him. HOOP SKIRTS .- The best tempered steel is found to be far superior to any other article for making Hooped Skirts, and John M. Robinson & Co., late Robinson & Bro., are still manufacturing in large quantities their celebrated Double Extension Patent Bustle Skirts, using exclusively the very best tempered watch-spring steel. Many of the largest retailers will not buy any other than these popular Skirts, and their customers pronounce hem superior to any they have ever seen worn, the hoops being so very elastic and pliable, that the Skirt is never thrown out of shape.

Journal shows no lack of the characteristic and various ability which has made it famous; but, unluckily, like a young barister, it has no "cause." Its "occupation," in a polical point of view, went out with the Whig party. Since then it has found nothing bigger or better to do than to serve the "Know Nothings," and figure as the "Plug-Ugly" organ of the Southwest. READ! READ! READ!—"Ye afflicted read," the following Certificate of a cure of over twenty years' standing:

H. T. H. SIMDOLD—Dear Sir: I have been troubled with an affliction of the Bladder and Kidneys for over twenty years. I have tried Physicians in vain, and at last concluded to give your Genuine Preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects, and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the affileted. Hoping that this may prove advantageous to you in assisting you to introduce the medicine.

I am truly yours, M. McCORMICK.

LYON'S MAGNETIC POWDERS,
Will destroy Garden Insects, Cockroaches, BedBugs, Fleas Anis Moths, and all pests
of the vermin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these
annoying foes. This powder is the only article ever discovered which will exterminate them. A company of
botanists, from the Hortlcultural Society of Parls, while
amidst the ferns of Asia, observed that all insects lighing upon a certain kind of plant very soon dropped dead.
This fact was made use of to guard their night camps
from these intruders. Quantities of the plant were
brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age
and climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany, and Russia, from the World's Fair, and numerous medical and horticultural colleges, and societies.

Mr. John L. Rome, Superintendent of the New York
Hospital, says, "he has expelled all the bugs, ants,
roaches, moths, etc., with Lyon's Powder, and finds it of
immense value."

Every gardener and house-keeper must have a direct
interest in an article of this kind. Reference can be
made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute;
James Gordon Bennett, Gen. Winfield Scott, Cyrus W.
Field, L. M. Pease, of the Five Points Mission, etc., etc.
Judge Meigs says, "This discovery of prof. Lyon is of
national importance. The Farmers' Club have tested it
thoroughly. It will destroy locusts, grasshoppers, ants,
moths, bugs, and all vermin. Garden plants can be
preserved, and houses made pure."

Arrangements are now made, through Messrs. Barnes

world. Many worthless initations are advertised. Be

LIVER COMPLAINT, Weakness of any kind,

STOMACH OR LIVER,

STOMACH OR LIVER.

Such as Indigestion, Acidity of the Stomach, Colicky
Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous,
Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared cascrictly scientific principles after the manner of the celebrated Holland Professor, Forthave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged.

At its particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

The great popularity of this delightful Aroma has infuced many imitations, which the public should guar it
against purchasing. Be not persuaded to buy anything
size until you have given Borhave's Holland Bitters a
fair trial. One bottle will convince how infinitely supeior it is to all these imitations.

SUNDAY NIGHT DISPATCHES. From Washington.

Washington, March 20.—Official information will go out, in to-morrow's Pacific mail, of the ratification of the ten treaties with the Indians in Oregon and Washington Territories, as this took Crescent City, Pomeroy; Queen City, Cin; Tempest, Nash; Diana, N O; place during the late extraordinary session of the Senate after Congress adjourned. No appropria-tion could be made to carry then, into immediate

effect. It was mainly owing to the explanations of Gen. Lane that these treaties were ratified; that gentleman having convinced his brother Senators that they would tend to permanent peace. He had the effective support of Senator Gwin and Ex-Gov. Stevens in his persevering efforts. By these treaties the title to fifty millions of acres of lend will be extinguished at the cast to this Gov. land will be extinguished at the cost, to this Gov-ernment, of three and a half cents per acre. On that occasion a resolution was passed, almost unanimously, providing that hereafter, when it is proposed to buy Indian lands, the Senate shall first be consulted before entering into treaty stip-

CALL attention to the notice of the Peoria Insurance Company from the Chicago Daily Press and Tribune, which notice was voluntary on the part of the editors, who know what they say to b: true. Such evidence must put to blush the petty malice aimed at the Peoria Insurance Company by some malicious slanderers of our city. The Company has a paid capital of \$200,000, and a surplus of \$52,000. This surely is a sufficient guaranty to all who will insure. Its business is very large and reliable. Reference to the only loss in Louisville for the last 12 months in the card of Wm. Musselman. I hereby invite those who want insurance to give me a call. The agency is now under the control of the underwriters of this city, but free and untrammelled. Risks taken on my own judgment, and if any loss occurs, it will be paid promptly. Marine policies issued and 10 per cent. premum retained on all insurance, to be settled by note every six months.
